Workshop topics

- Biometrics
 - technologies (face, finger, ...)
 - applications
- Privacy enhancing technologies
 - biometric template protection
- Content identification
 - watermarking
 - fingerprinting
- Value-paper protection
 - watermarking

Secure Identification of...

- People
- Processes
- Systems
- Content

Challenges

Performance

Error rates
Large data base searching

Robustness

Adverse conditions
Uncooperative subjects
Spoofing

Privacy

Identity theft

Integration

Application
Context
Devices

Threats

- 'Problem solved' syndrome
- Disappointing performance (...of others 😊)

Have a nice day
